SUMMARY

Electronics and Communication Engineering graduate with internship experience in social device manufacturing and product development. Skilled in embedded systems, Arduino programming, and integrating hardware with software for practical applications. Seeking full-time positions. To associate myself with an organization that gives me a chance to update my Knowledge. To discover newer areas and gain experience in working.

WORK EXPERIENCE

GAT, JCB India

Dec 2024 - present

- Developed a script in Zuken to automatically identify old and new connectors based on version control, which streamlined the design review process.
- Gained hands-on knowledge of both electrical and non-electrical components
- Acquired practical experience with industry tools such as Zuken for electrical design and Teamcenter for product lifecycle management. Wiring harness design and development
- Electrical schematic design (using tools like Zuken E3.series).Connector and terminal selection
- Assist with 2d schematic and 3d harness routing.
- BOM (Bill of Materials) creation and verification. Harness drawing and 2D/3D layout interpretation

Software Engineer Trainee, STSARC Pvt. Ltd.

April 2024 - Aug 2024

- I completed a Flutter internship, focusing mainly on the frontend.
- I worked under the guidance of senior developer to check & fix the bugs and to improve existing code.
- And gained hands-on experience in building user interfaces and managing state for mobile applications. My worked involved enhancing UI/UX and implementing responsive designs.

EDUCATION

B.Tech., Electronics & Telecommunication Engineering

Graduated July 2023

Savitribai Phule Pune University, Pune

8.12 GPA

JSPM's Rajarshi Shahu College of Engineering,Pune-33

Relevant coursework: Java, Adv. Java, HTML, CSS

High School in Science (12th)

2019

61.54 %

Savitribai Phule Pune University, Pune

Nirmal Bethany High School & jr. College Relevant coursework: C, HTML, CSS, JS

Primary School (10th)

2017

70.45 %

Savitribai Phule Pune University, Pune

Nirmal Bethany High School & jr. College

TECHNICAL SKILLS

Design and Modeling Tools: Visual Studio, Eclipse, Zuken, NX, MATLAB, Arduino

Programming: C, C++, Python, Java, MySQL.

SKILLS

- Teamwork
- Time Management
- Effective Communication
- Critical Thinking

PROJECTS

CAN Bus Communication Test Bench using Arduino and MCP2515

- Developed a CAN Bus communication test bench using two Arduino UNO boards and MCP2515 modules to simulate ECU-to-ECU data exchange.
- Configured one Arduino as a sender transmitting RPM data and the other as a receiver displaying decoded values via Serial Monitor.
- Gained practical understanding of CAN protocol, and embedded system debugging.

Weather Application

- WeatherApp is a Java console application that fetches and displays weather information for a specified city using the OpenWeatherMap API.
- It provides details such as temperature, humidity, and weather description.
